

## Accelerating Rangeland Innovation

A unique opportunity to share your innovations

*Raised boards with new equipment are innovations that make shearing and wool handling easier*

### *Have you made an innovative change on your pastoral property that has made your job easier?*

If so, Australian Wool Innovation's network for pastoral wool producers [Bestprac](#), wants to know about it and the difference it has made to your business.

Following the success of the 2009 [Australian Pastoral Property Innovation Manual](#), AWI and Bestprac are promoting innovation uptake across the pastoral regions of Australia.

The National Bestprac Coordinator, Rural Directions Pty Ltd, is currently seeking expressions of interest from you to share pastoral wool and sheep production improvements you have made.

The project will document and communicate ground breaking advancements to pastoral wool and sheep producers. Topics may include:

- Animal health
- Animal production
- Technology
- Business management
- Human resources management
- Climate adaptation

Innovation profiles, videos and business cases will be shared as they are collected until June 2014.

### Have you got an innovation to share?

Contact Taryn Mangelsdorf, at Rural Directions Pty Ltd on 08 8841 4500 or email [bestprac@ruraldirections.com](mailto:bestprac@ruraldirections.com) for more information.

Visit the Bestprac website ([www.bestprac.info](http://www.bestprac.info)) to view the innovations collected in the Australian Pastoral Property Innovation Manual in 2009.
